GitHub: github.com/Aayush426 Address: Mayur Park, Somanth Avenue, Near Under Bridge, Jamnagar

Summary

Computer Science undergraduate with experience in full-stack development, software testing, QA, and DevSecOps. Skilled in building scalable systems using React, FastAPI, Docker, and testing tools such as Selenium, JMeter, Postman, and SonarQube. Currently working as a QA Intern at Nayara Energy Limited with exposure to manual testing, API testing, regression testing, UAT, and enterprise software workflows. Strong interest in software quality assurance, automation testing, and secure software development.

Education

Bachelor of Technology (B.Tech) in Computer Science

Charotar University of Science and Technology

2023 – 2027

Current Year: 3rd Year

Skills

Programming Languages: Java, Python, JavaScript

Frameworks & Technologies: React, FastAPI, MongoDB, MySQL

Tools: Git, Docker, JIRA, Bugzilla, Postman, JMeter, Apache Maven, SonarQube, Selenium, TestNG, Cypress, JUnit

Testing & QA: Manual Testing, API Testing, Database Testing, Functional Testing, Regression Testing, User Acceptance Testing (UAT), Automation Testing

Concepts & Domains: Agile & Scrum, Software Testing Life Cycle (STLC), DevSecOps, Machine Learning (Basics), Computer Vision

Projects

BugAudit Engines (SaaS DevSecOps Platform)

Technologies: React, FastAPI, Docker, JMeter, SonarQube, Trivy, OSV.dev, Snyk

- Developed a SaaS platform to analyze code quality, performance, and security vulnerabilities in a unified dashboard.
- Integrated tools like JMeter, SonarQube, Trivy, Snyk, and OSV.dev for automated testing and vulnerability detection.
- Designed backend services and handled API integrations for automated scanning workflows.
- Implemented containerized environments using Docker for scalable and isolated testing.

TripMind (AI-Based Travel Itinerary Generator)

Technologies: Python, Machine Learning

- Built a system that generates personalized travel itineraries based on user preferences.
- Applied machine learning techniques to recommend destinations and optimize travel plans.
- Designed logic for dynamic itinerary creation considering time, budget, and interests.

WorkWave (Corporate Management System)

Technologies: PHP, MySQL

- Developed a web-based management system for handling corporate workflows and operations.
- Implemented modules for task management, employee coordination, and data handling.
- Worked on backend logic and database integration for efficient data processing.

Experience

QA Intern

Nayara Energy Limited

May 2026 – Present

- Performing manual, functional, and API testing for enterprise applications and internal systems.
- Working with JIRA for defect tracking, bug reporting, and test workflow management.
- Assisting in User Acceptance Testing (UAT), regression testing, and validation of business workflows.
- Collaborating with teams to identify issues and ensure software quality and reliability.

React Developer Intern

BrainyBeams

May – June 2025

- Developed and maintained responsive web interfaces using React.
- Collaborated with team members to build scalable frontend components.
- Integrated APIs and improved user experience through optimized UI design.

Research Intern – Computer Vision (OpenCV & AI)

Charotar University of Science and Technology

May – June 2025

- Conducted research in computer vision using OpenCV and AI techniques.
- Developed a model for early detection of eye diseases using image processing.
- Worked on data preprocessing, feature extraction, and model evaluation.

Leadership & Volunteering

Global Volunteer – AIESEC Global Classroom Project

Nalanda University, Sri Lanka

- Participated in an international volunteering program focused on cross-cultural education and collaboration.
- Contributed to teaching and knowledge-sharing initiatives as part of the Global Classroom project.
- Developed communication, teamwork, and leadership skills while working in a diverse global environment.

Certifications & Achievements

- IBM Machine Learning Certification
- AWS Academy Cloud Computing Certification
- Agile Project Management Certification
- Atlassian JIRA Certification
- Software Testing Courses (Coursera)
- Additional certifications in Postman, JMeter, and SonarQube (Coursera)
